B.B.W. Industrieservice GmbH

B.B.W. Industrieservice GmbH was established in 1992 by Bernd Wagner, managing partner. Since then, as a premium service provider, in particular in the area of quality management and quality assurance, it has become a strong for many notable companies. The automobile industry has been strong focus of the company since the beginning. Since then, customers from various different sectors have been benefiting from the high quality standards and effective working methods of B.B.W. Its fast acting, reacting as well as technical know-how have allowed it to enjoy the complete trust of numerous original equipment manufacturers and suppliers throughout Europe and beyond. For more than 20 years now, over 100 employees, managed by qualified team and project managers have been ensuring complete customer

satisfaction.

B.B.W. Industrieservice Sachsen GmbH

To improve the proximity to our customers in the northeast of Germany, we established the B.B.W. Industrieservice Sachsen GmbH in 2006. This step secured a faster and more flexible service for projects of the automotive driven country of Sachsen.

B.B.W. Automotive GmbH

Specialized in quality assurance of powertrain components, the B.B.W. Automotive GmbH provides high quality services to a wide range of customers. National and international projects will be coordinated from Munich, where the company is headquartered. Flexible and experienced task force teams assure short reaction times, combined with the right technical knowledge.

B.B.W. in Austria GmbH

B.B.W. Austria primarily focuses on consulting in the area of packaging optimisation and operational safety. Its employees have all the required qualification for Germany and Austria and have a wealth of experience. Its target audience are both small as well as large companies.

Operational safety

Noticeable improvement regarding risk prevention can be ensured through careful evaluation and assessment of potential dangers. Furthermore, customers are advised on setting up new working equipment and materials as well as the inspection or respectively choice of personal protective equipment. The organisation of fire protection and first aid measures are also dealt with.

Development of packaging and packaging optimisation

In addition, B.B.W. Austria carried out high-quality analyses and optimisation of the packaging systems. Its wide range of services includes the development of packaging, assistance in the inspection and approval of packaging as well as the analysis of damages caused in the framework of transportation.

B.B.W. IT Technologies GmbH

Established in 2006, the core business of this company is the international sourcing and stuffing of freelance IT specialists. As a manufacture-independent system house, it offers its customers cost-effective services and solutions for various IT infrastructures. At the same time, it makes a quick selection of qualified and experienced IT experts possible and this in turn, makes it possible to realise the respective IT projects in a timely and target-oriented manner.
